

## X44 LIMOUSINE RIB

This 13.40 meter RIB (44 ft.) utilises the same performance triple stepped hull as the X44R, but introduces luxury and comfort to the equation. As the name suggests, the X44 Limousine features a cabin with plush sofa seating, a bar and entertainment centre, however, it also features an open forward cockpit with wrap-around seating for those who enjoy the outdoors. Depending on the client and expected guests, ( and the installed horsepower ), the X44 Limo is capable of maintaining cruising speeds of 35 knots, and reaching speeds approaching 45 knots. You definitely won't be late to the party.

### VESSEL PARTICULAR
